

OFFICE 365

Microsoft Office 365 takes productivity software online and into the cloud, reducing costs and administrative overhead while improving reliability. However it's more than just using Word, Excel, PowerPoint and Outlook over the Internet

Codex.systems is established with the motive of providing all range of services related with the computers. We are specialized in diagnosing computers and repairing. We even deal with spare parts.

We can look after any sort of problems that your computer, laptop, notebook, netbook are facing and will make you free from those problems.
